

PVC MARBLE SHEET

PRODUCER OF ALL KINDS OF P.V.C

Ideal For Interior Decoration

This PVC marble sheet can be used in many places for its outstanding features, especially for public commercial places. It is very attractive, economical, waterproof, fire retardant, easy and quick installation, easy maintenance, it can save big cost for business owners at wall decoration, wall repair and wall renovation. It grows to replace other interior wall paneling and decorative materials like wood, metal, natural stone, and other synthetic and composite materials .

For its attractive and typically classic stony marble and colors, it can be widely used for wall paneling, wall cladding, wall veneering, interior veneering, house remodeling in plac-

es like company fronts, office rooms, meeting rooms, fashion stores, restaurants, coffee shops, clubs, salons, and so on.

For its waterproof feature, it can be widely used for kitchen wall, shower room wall, bathroom wall, swimming houses, water clubs, and so on.

For its light weight feature, it can be used for ceiling decoration.

For surface decoration, this PVC marble sheet also can be used for surface overlay or veneering, like furniture veneering, kitchen closet veneering, door veneering, etc.

The image features a full-page background of a marble pattern. The primary color is a light, creamy beige or off-white. This is intricately veined with irregular, organic shapes of a warm, terracotta or light orange-brown hue. The veins vary in thickness and intensity, creating a complex, natural-looking texture. The overall appearance is that of a high-quality, natural stone surface.

The background of the entire page is a detailed, high-resolution image of a marble surface. The pattern is characterized by a complex network of veins in various shades of grey, black, and brown, set against a light cream or off-white base. The veins are irregular and organic in shape, creating a rich, textured appearance.
